The Pdt. Dt Bd. Kolar

No Rc. 12/36-37 dt 28/30-3-37

Requesting, for reasons stated, sanction to the resolution of the Bd that four Subordinates may be appointed by the Bd in connection with the carrying etc., of the D.D. for 9, in the Dt. Subd. The implications of the case are

(1) the indirect appl of Govt for the Bds' utilising the Ry. Cess realisations for repairs to the existing roads, etc., &

(2) the appointment of four Subordinates to work under the Dt. Bd.

2 Under Sec 68(4) of the Dt Bds Act, as amended, a Dt. Bd. may spend, with the previous appl of Govt. the whole or any portion of the Ry. Cess or interest thereon for the Construction of new roads and bridges or for improvement work, to existing roads & bridges. The proposals now submitted by the Pdt. Kolar Dt. Bd. do not, perhaps, come under the above provision. ~~and therefore the request~~.

3 Again, Govt. have on more than one occasion expressed that they are not in favour of the Dt. Bds. maintaining a separate Engineering staff under their

NOTE—Contn. Sheet.

... Chief Engr. has not been consulted in the proposals now made — if not presumptive — by him. As such it is not right to say that the cost of the work if it is got done by the P.W.D. "will be prohibitive".

If the Dt. Bd. really feel that the condition of the roads in the Dt is so bad and requires special attention and if they cannot attend to that work from out of the normal resources & staff they have, it is a matter for consideration why the entire work shd not be entrusted to the P.W.D.

§ The President, Dist. Board, ... is obviously trying to introduce the thin end of a wedge viz to have a separate Engineering establishment ... under his control — which is just what the present proposal implies.

§ Railway cess is levied at the rate of three pies in the rupee and Revenue ... in Kolar Dist and the amount realized every year is Rs 41,000/- this amount is now available for being utilized by the Dist Board otherwise, as the Debenture Loan will be paid off commencing from 1st April 1937 —, a Sinking fund equal to this Debenture ... very soon will ...

Serial No.

The amount thus released to the extent of Rs 4,1000/ has to be utilised to the best advantage of the Board.

The proposal now made by the Kolar Dist Board is to utilize this amount on a three year or five-year programme of bringing the present mileage of roads (500 mls) which are under the B. civil agency of the Dist Board to a standard by having the roads surveyed. The President has not explained the reasons why or how these roads have deteriorated, in spite of the annual maintenance allotment in respect of these roads.

It is proposed to find money out of the Railway cess (for this purpose). It is doubtful if this special levy could be utilized in the manner suggested, as the term "improvement" has been specially defined under Sec 6 of (4) - whether this amount should not be set apart for works of permanent value such as bridges and culverts & opening up of new roads.

It is stated that private lands have been acquired for these roads & acquisition proceedings have been started. No special establishment is necessary

P. charges at 18% — which would have to be paid to the P.W.D. for the work to the extent of Rs 22200/- Can be got executed with the aid of a technical agency. If this proposal is sanctioned, it means that the Subversseer's verdict about the final condition of a road would be final which would have to be accepted by a Lay President. It is perhaps the want of such expert supervision of the maintenance work done by the Sanitary Inspectors over the roads that has brought about the deterioration of the roads under consideration.

For the E. D. P. charges the Board pays, not for the services of trained Senior Officers of the Department which is necessary to control the work. The Subversseer

There is a proposal now under consideration in the Fuel Sect — to call for a programme of works of permanent benefit to be undertaken out of the Ry cess in the Kolaba Dist. The programme for 36-37 has not yet been received. To sum up — it is held that as the Ry cess is a special levy, it may be utilized according to the provision of

Letter No. H.C. 12/36-37 dated 14-9-37 from President, Dt Board, Kolar requesting sanction to the programme submitted along with the Budget Estimates of the Board for the current year.

In para 2 of G.O. No. L 8315-19/RB 113-35-19 dated 20-5-37, it was directed that the Kolar Dt Board be permitted to utilise the Ry Cess collections, after reserving Rs 10,000 for railway expenditure, for original works involving a substantial outlay, for a period of three years.

Along with the Budget Estimates for the current year, the President has enclosed the following three statements :-

1) Details of Public Works to be executed by the P.W.D during 1937-38 — Rs 25,557

2) B. Public Works executed by the Civil Department — 20,000

of which Rs 15,000 is proposed to be charged to the Ry Cess.

General and Revenue Secretariat

Detailed proposals for spending amount from grs 15000/- on repairs are awaited. These can be vouched only after scrutiny as to whether they come under ordinary repairs or improvements -

The Kolar Dt Board has already formed some roads, and only have got to be brought to standard, whereas the Chittoor Dt Board has yet to form some new roads. The Kolar Dt Board however is now in a position to bring roads to standard from its normal revenues. Hence an allocation of Rly Cess for bringing the roads to standard - which cannot be an "improvement" - may be sanctioned.

Sir,

I have the honour to state that it is being increasingly felt that the roads covering a mileage of nearly Five Hundred miles which are under 'B' Civil Agency of the District Board are not in a very good condition and that a comprehensive three-year or five-year programme has to be adopted to bring them to the standard. All the roads have to be surveyed carefully and the plans of the roads with accurate estimates for improving them will have to be immediately prepared with a view to drawing up the programme. The realisations from Railway cess will finance such a programme. Moreover, when the roads were formed, private lands required for the roads have been taken possession of without necessary acquisition or muchalikas. Innumerable petitions are being constantly received from land-owners that their lands have been unauthorisedly taken possession of, they have not been given compensation and what is more, even the proportionate assessment is not reduced. Also, in some cases there are no road margins for excavating check drains and taking earth from for the ordinary repairs of roads. Such cases have to be examined and the necessary acquisition effected. All this means full time work for about six months for 4 Sub Overseers. The present Sanitary Inspectors are already overworked and they have not enough time to pay attention to Sanitary duties and it is not possible even if desirable, to entrust them with extra P.W.D. work. And if the work were to be got done by the P.W.D., I am afraid the cost will be prohibitive.

2. The Board at ther meeting held on 15th Dec. 1936, after

after carefully considering all aspects of the question, have resolved that 4 Sub overseers may be appointed on a pay not exceeding Rs.50/- each per mensem plus an allowance of Rs.15/- for a period not exceeding 6 months to do this work. If the work is completed earlier, the establishment will be disbanded immediately after such completion. They will be posted to the charge of Taluks comprising in 4 D.P.W. Sub-Divisions.

3. I request you, therefore, that you will be so good as to obtain the sanction of Government to the resolution of the Board.

4. The required amount of incidental/cost is proposed to be included in the Budget Estimates of the Board for 1937-38.

A copy of the Resolution of the Board on the subject is enclosed herein.

Sir,

I have the honour to invite kind reference to this Office No. HC. 12/36-37 dated the 24th March 1937 soliciting sanction to the proposal of the District Board for the entertainment of 4 Sub-Overseers on a pay of Rs. 50 + 15/- each permensem for a period of 6 months for surveying the conditions of the existing District Fund roads maintained by the Civil agency and for preparing -- suitable plans and estimates for bringing them to a standard etc., and to state the need for this additional Establishment has been clearly explained at length in the letter under reply. This

It is all the more imperative to move for an early sanction of the proposal for additional establishment as a sum of Rs. 50,000/- allotted in the current year's Budget of the Elementary Education cess for 'Buildings' has been sanctioned by Government and details have been called for by the Director of Public Instruction in the matter and the same is receiving attention.

Further the Government have also sanctioned the utilisation of the Railway cess for roads and bridges in the order No.L.8615-113-35-64 L.B. 215-35-4 dated 20-5-1937 and detailed proposals are also under submission in this connection and it is needless for one to re-iterate the fact that the existing staff of Sanitary Inspectors cannot cope up with their increased responsibilities in addition to their present normal work.

Under these circumstances and with a view to expedite further action in the matter, I request that Government may be pleased to

to obtain necessary sanction of Government on the proposals referred to at para 1 overleaf, and the same communicated to me as early as possible.

Sir,

With reference to your letter No.L.2214/ L. B. 12- 36- 22 dated the 26th Aug:1937 calling for submission of a final programme of works proposed to be undertaken from Railway cess collections, I have the honour to state that a sum of Rs.60,554/- being the amount of Railway cess for 1936-37 and 1937-38 at Rs. 31,000/- per year, as earmarked by Government, in their order dated 20- 3- 1937 has been proposed to be utilised for A and B Public works, as noted in the margin during the current year.

1. Public works. Rs.	25,554/-
2. Public works:	
1.Roads,original.	15,000/-
2. Improvement of existing roads by constructing Tunnels etc.	15,000/-
3. Collection of materials on existing roads for improving the surface.	5,000/-
Total. Rs.	60,554/-

Detailed programmes in respect of A,Public works to the extent of Rs.25,554/- and B, Civil works (Roads-original) for Rs.15,000/- have been submitted, as enclosure to the District Board Budget for 1937-38 sent to the Comptroller with my letter No.O.C. 109/36-37 dated 4-6-1937 and sanction of Government thereto is awaited. I request therefore the favour of your obtaining general sanction of Government to the proposal referred to above, aggregating Rs.60,554/-.

A final detailed programme as regards 'B' Civil works is under active preparation and the same will be submitted to the Government in the course of the month. But since that would mean delay, I request that tentative sanction of Government may kindly be obtained to the skeleton programme as outlined and sent along with the Budget Estimates as Statement No.B 1 so that a beginning may be immediately

immediately made in the execution of some of the works, in proper season, pending sanction of the final programme which will be -- submitted early.

I may also state that, out of the Railway cess realisations, a sum of Rs. 4,622- 1- 6 has already been paid to the Public works Department last year towards the works mentioned in the margin in -- pursuance to the marginally -- noted communications from the Government and Comptroller in the matter and that there are some other works of a similar nature which have been completed by the P. W. 3. Closing Balance.

The sanctioned closing balance is Rs.40,529/- but the revised closing balance is expected to be Rs.55/-632/- as a result of variations explained above.

BUDGET ESTIMATES FOR 37- 38.

4. Opening balance.

The openingbalance for the year 1937-38 is estimated at Rs. 55,632/- corresponding to the revised closing balance for 1936-37.

5. Receipts.

The estimates gross receipts are Rs.2,82,052/- and the amounts as arrived at are mainly calculated on the basis of the revised figures of 36-37 and also the information furnished by the concerned departments. The important variations and the reasons therefor are indicated in the statement B of the Budget.

6. Expenditure.

The estimated gross expenditure is Rs.3,06,742/- which is less than the revised estimate for of the previous year (1936-37) by Rs.3,62,967/- of which a sum of Rs. 3,22,600/- is due to the redemtpion of the Kolar District Board Railway debenture loan of 1912 which matured on 1-4-1937

Consequent on the withdrawal of Railway Investments to the extent of Rs.2,22600/- during 36-37 for redemption of bonds referred to above, there is a fall in the items of " Interest on Investments" during the year 37-38 by about Rs. 19,000/-. Excepting the above, the other minor variations are explained in Statement C of the Budget. It may be noted that in framing the expenditure side of the Budget, care has been taken to provide only as much funds for A and B Public works as can be conveniently provided for under the ordinary receipts. Only a sum of Rs.28,000/- has been provided for B Public works as against Rs.32,000/- sanctioned for 36-37. The provision for Repairs to roads maintained by District Board -- agency has been raised to Rs.30,000/- from 25,110/- as it was -- found absolutely essential to raise the mileage allotment for roads on which Bus traffic has been allowed during the current year.

Provision has been made for the following items, out of ordinary income.

Rs. 2,600/- Arrears of pensionary contribution on Medical staff for 33-34, 34-35 and 35-36.

1,710/- One District Board Dispensary at Budikote which could not be started in 36-37.

1,000/- Contribution towards the construction of L.F. Dispensary building at Masthi.

1,118/- Contribution towards new Maternity Hospital at Kolar.

1480/- For 6 more Rural Midwives.

1,000/- For 4 additional Ayurvedic and Unani Dispensaries or subsidising medical practitioners in rural areas under the New Scheme sanctioned by Government.

1,150/- For starting one more Veterinary Dispensary at Srinivasapur.

2,400/- For continuing the Khadi Centre at Hossur.

2,500/- For giving grants to the selected Village Panchayats for purposes for which the Board is responsible.

In addition to the above, the usual provision for grants to Reading Rooms, purchase of breeding bulls, scholarships, purchase of books and journals to District Board Library have been made.

7. Closing balance.
As a result of the estimates under Opening balance, Receipts and Expenditure the closing balance is estimated to be Rs.31,442/-.

8. Financial condition. The normal income and the normal expenditure of the Board are Rs. 1,89,433/- and Rs. 1.80,816/- respectively leaving a net savings of Rs. 8,617/-. The normal expenditure is therefore well within the normal income. The closing balance is Rs.31,442/- and represents the minimum balance as -- required by Rules, i,e, 1/8th of the income, which is only -- Rs. 2,60,488/- including the extra-ordinary items of revenue such as Railway cess income, and Net earnings from Railways and interest at least on investments and not Rs. 2,82,052/- which represents the Gross Receipts including transfer adjustment items of Rs.15000/- Net income from railways. Rs.5666/- Interest on Railway investment and Rs.2400/- Hossur Khadi fund appearing twice both under -- Receipts and Expenditure under separate ' Heads(

9. Extra-Ordinary Receipts and Expenditure:-
The receipts and payments under this head are --

are Rs. 52,619/- and Rs. 1,25,426/- respectively. Excluding the major items, 'public debt' and "Railway transactions", the other items amounting to Rs.12,645/- represent contribution from Government towards Hossur Khadi Centre Rs.600/-, Village Panchayat contributions for Drinking water wells, initial charges towards District Board and Veterinary Dispensaries and V.P. contribution towards improvement of selected villages and a small sum of -- Rs.6,660/- contributed from E.E. Railways being interest on the Railway Investments. These items of receipts combined with the savings of Rs.6617/- under normal receipts and Rs.24,100/-out of the Opening balance are proposed to be spent on improving road communications, providing additional drinking water wells in rural areas, payment of arrears of pensionary contribution on medical staff, opening of a new District Board Dispensary and one Veterinary Dispensary, Grant for purchase of breeding bulls, Hossur Khadi Centre, Grants for improvement of selected villages and usual contributions and grants to High School, Reading Rooms, scholarships and several other institutions.

10. Statement 59-A gives comprehensive and detailed information of the transactions of the Kolar District Board Railways from the -- commencement of the operation upto the end of the year 1957-58. It will be seen therefrom that the Total Receipts and payments under Revenue items amount to Rs. 29,36,581/-, Rs.27,67,295/- respectively, leaving a surplus balance of Rs.1,66,285 after discharging the District Board Railway debenture loan amounting to -- Rs.1,00,700/-. There would therefore remain debenture loan of 1914 amounting to Rs.55,100/- which is redeemable in 1959 for which there is an investment of Rs.65,600/- in Fixed deposits. The balance available out of Railway cess realisations for 56-57 and 57-58 is Rs.61,000/-, and forms part of the surplus.

11. Provision for utilisation of Rs.41,000/- only the Railway cess realisations in 1956-57 was made in the Budget of that year but the Government when sanctioning the Budget Estimates in their order No. ..... required that separate proposals should be sent regarding the same. Separate proposals were accordingly sent and the Government orders on the same are awaited. Presuming that the amount will not be available for expenditure during 56-57 it is now proposed to spend an amount of Rs.61,000/- only, the available balance of Railway cess realisations during 56-57 and 57-58 to ards construction of new roads and for improvement works to existing roads in the District since it is not required immediately or in the near future for expenditure on the purposes specified in Sub Section 6 of Section 68 of the District Board Regulation. On repeated requisitions from the Public Works Department for improving the roads under their maintenance a sum of Rs. 25,000/- is provided. And many of the roads under 'B' Civil works are either incomplete or require immediate improvement by way of provision of tunnels and cause ays, wideing, levelling and improving the surface by -- gravelling or metalling bad portions and otherwise by way of works essential to placing them in a propper state of repair. The amount spent up till now on these roads will be more or less a waste unless immediate steps are followed up for improving them. Hence a sum of Rs.35,000/- is provided under 'B'Civil works for that purpose.

If Government are pleased to sanction this, the provision both under receipts and expenditure will have to be raised by Rs. 60000/-.

The Board have also resolved that in the event of the Government sanctioning the separate proposals of the Board for the utilisation of the Railway cess during the current year, the allotments to the extent of the amount sanctioned by them may be reduced respectively in the proposals made for next year in this connection.

12. Every possible action is being taken to improve the finances of the Board and cut down all unnecessary expenditure. Provision for improvement of communications is possible only out of the -- realisations of Railway cess and as regards a better and satsifactory

XXXX

satisfactory discharge of the other obligations of the Board, it is very necessary that Government should be pleased to allot the full realisations of local cess on Land, Excise and Forest revenues, make liberal grants to the Board, as also relieve to the extent possible the Board's contribution towards the maintenance of Local Fund Dispensaries, establishment and Tools and plants charges being paid to the Public works Department etc.

Increase in Col: 2 is due to increase of pay to menials of Dispensaries recently sanctioned by Government.

* The dispensary at Budikote is not yet opened. Hence saving under Col: 3.

Provision of Rs 1000/- is made for the construction of Masti & Dispensary Building & that for 36-37 relates to the new District Hospital Building Yelahanka.

The increase under 'repairs' is due to a provision of Rs 300/- for District Board Dispensary Buildings in addition to the usual provision of Rs 700/- towards other medical buildings.

The increase for 1937-38 is due to the proposal to entertain 6 more midwives in addition to the existing ones.
